65. (ORIGINAL) The apparatus of Claim 61, wherein the advertising content is determined according to user viewing habits.

66. (ORIGINAL) The apparatus of Claim 61, wherein the advertising content is determined according to the first daypart.

67. (ORIGINAL) The apparatus of Claim 61, wherein the advertising content is user-selectable and selecting the advertising content initiates contact with a vendor.

68. (CURRENTLY AMENDED) The apparatus of Claim 47 ~~46~~, wherein the menu guide content portion comprises a plurality of portions of the media program information, ~~each portion~~ describing a respective ~~one of the plurality of media programs~~ scheduled to be available during the first daypart on the ~~selected~~ active channel, and wherein the input device further accepts:
a command to activate the menu guide content portion for navigation,
a command to scroll through the plurality of portions of the media program information ~~describing the respective plurality of media programs~~; and
a command to select one of the plurality of media programs.

69. (ORIGINAL) The apparatus of Claim 68, wherein the processor further presents further media program information regarding the selected one of the plurality of media programs.

70. (ORIGINAL) The apparatus of Claim 68, wherein the input device further accepts an input to designate the selected media program as the home media program.

71. (ORIGINAL) The apparatus of Claim 68, wherein the input device further accepts an input to designate the selected media program for recording.

72. (ORIGINAL) The apparatus of Claim 46, wherein the first daypart is the current daypart.

73. (ORIGINAL) The apparatus of Claim 46, wherein the first daypart is a selected daypart.

74. (ORIGINAL) The apparatus of Claim 46, wherein the media program information is wrappably scrollable in daypart increments in a time dimension and scrollable in a channel dimension.

75. (CURRENTLY AMENDED) The apparatus of Claim 46, wherein:
the input device further accepts a selection of a second daypart from the media program information space;
the processor further provides a second menu guide in response to the selection of the second daypart from the media program information space, the second menu guide comprising the menu guide content portion presenting ~~at least some of the media program information describing at least one media programs consisting of all of the media programs~~ scheduled to be available on ~~an~~ the active channel during the second daypart.

76. (CURRENTLY AMENDED) The apparatus of Claim 75, wherein:
the selected second daypart is temporally distant from the first daypart by a time period selected from the group comprising:
a daypart;
a day;
a week;
a month; and
the selection of the second daypart from the media program ~~information~~ information space is accomplished with a single input.

77. (ORIGINAL) The apparatus of Claim 75, wherein the input device further accepts a command to activate the menu guide content portion of the menu guide for navigation, and accepts a selection of a media program scheduled to be available on an active channel during the second daypart.

78. (ORIGINAL) The apparatus of Claim 77, wherein the menu guide includes a menu content portion navigation icon indicating when the menu content portion of the menu guide is activated for navigation.

79. (ORIGINAL) The apparatus of Claim 78, wherein the menu content navigation icon further comprises a plurality of elements indicating navigation of the menu content portion of the menu guide.

80. (CURRENTLY AMENDED) The apparatus of Claim 47 ~~46~~, wherein:
the input device further accepts a command to designate a second channel as the active channel;
the processor further modifies the first menu guide content portion to present ~~at least some~~
~~of the~~ media program information describing media programs consisting of all of the at least one
media programs to be available on the second channel during the first daypart.

81. (ORIGINAL) The apparatus of Claim 80, wherein the menu guide further comprises a channel portion indicating an active channel and selectable channels, and the input device further accepts a command to activate the channel portion of the menu guide, and a command to designate one of the selectable channels as the active channels.

82. (ORIGINAL) The apparatus of Claim 80, wherein the selectable channels are selectably organizable according to a sort selected from the sort group comprising:
alphabetical order, wherein each of the selectable channels is associated with a unique alphabetical designator,
numerical order, wherein each of the selectable channels is associated with a unique numerical designator
implicit user preference;
explicit user preference; and
at least one category, wherein at least some of the selectable channels are members of the at least one category.

83. (ORIGINAL) The apparatus of Claim 82, wherein:
the input device further accepts a command to organize the selectable channels according to the sort selected from the sort group; and
the processor further organizes the selectable channels according to the selected sort in response to the command to organize the selectable channels according to the sort selected from the sort group.

84. (CURRENTLY AMENDED) The apparatus of Claim 80, wherein the selectable channels are organized according to a plurality of categories, and wherein:
the input device further accepts a selection of a category from the plurality of categories;
the processor further modifies the first menu guide content portion to present ~~at least some of the media program information describing at least one media programs~~ consisting of all of the media programs scheduled to be available on the channels belonging to the selected category during the first daypart in response to the selection of a category from the plurality of categories.

85. (ORIGINAL) The apparatus of Claim 80, wherein the selectable channels are organized according to a category selected from the category group comprising:

- a movie category;
- a pay per view category;
- a news category; and
- a sports category.

86. (ORIGINAL) The apparatus of Claim 85, wherein at least one of the categories further comprises a plurality of subcategories.

87. (CURRENTLY AMENDED) The apparatus of Claim 86, wherein:
the input device further accepts a selection of a subcategory from the plurality of subcategories;

the processor further modifies the first menu guide content portion to present ~~at least some of the media program information describing at least one media programs consisting of all of the media programs scheduled~~ to be available on the channels belonging to the selected subcategory during the first daypart.

88. (CURRENTLY AMENDED) The apparatus of Claim 87, wherein:
the input device further accepts a selection of a second daypart; and
the processor further provides a second menu guide, the second menu guide comprising the menu guide content portion presenting ~~at least some of the media program information describing at least one media programs consisting of all of the media programs scheduled~~ to be available on the channels belonging to the selected subcategory during the second daypart.

89. (ORIGINAL) The apparatus of Claim 80, wherein the second channel is a channel providing access to an interactive service.

90. (ORIGINAL) The apparatus of Claim 80, wherein the channel is a personal video recorder (PVR) channel providing access to media programs recorded on the PVR, and the first menu guide content portion describes at least one media program available on the PVR channel.

91. (CURRENTLY AMENDED) A method of presenting advertising in a menu guide, comprising the steps of:

accepting advertising media content and a media program from a media content provider;

and

providing the media program information to a subscriber on an active channel; and
